Dr. Hill is as wonderfully knowledgeable and intelligent in his writing as he is in his teaching. Fortunate enough to have him as a professor and, incidentally, use his book (co-written with Wyse) as a resource, I strongly recommend it to anyone interested in animal physiology or to any biologist/zoologist.

Animal Physiology, Second Edition ... Hill's Animal Physiology is easy and fun to read and packed full of helpful pictures and diagrams. It covers nearly everything, often times in significant detail, yet still finds a way to explain things so that anyone with a little biology background can understand it. Everyone in biology should have this book.
