Drawing For Landscape Architects By

An essential volume for landscape- and garden-design professionals, *Drawing for Landscape Architecture* argues for the importance of learning to “see by hand,” to visualize large-scale design plans and articulate them through drawing before turning to the digital tools that are so crucial to efficient and cost-effective building solutions. This enriched approach makes for better design, happier clients, and more successful projects. 513 illustrations, 368 in color

Drawing for Landscape Architecture is the outcome of an exhibition held at the Garden Museum, London, in 2009, which displayed the working process of Edward Hutchison Landscape Architects (EHLA). The majority of works presented are the author's personal watercolours and drawings: these show his particular design process, response to site and development of design detail.

Drawing for Landscape Architecture: Sketch to Screen to Site

Landscape plans do just that by turning ideas into visuals. Landscape designers and architects are skilled at analyzing your needs and ideas and then using them to create detailed plans and drawings. Having landscape plans drawn up before starting your landscaping project will help you visualize what the end result will be like.
