Kubota Engine America - Home

The greatest advantage of Kubota engine is the technology to respond to environmental requirements and application engineering. Since receiving the CARB certification of emission regulations (California Air Resources Board, USA) for the first time in the world as small industrial engines in 1993, we have always conformed to strict emission controls from around the world as a pioneer of environmental technology.

Engines | Products | Kubota Global Site

Kubota engines are diesel and spark ignition engines manufactured by Kubota Corporation. Besides gasoline-fueled for spark ignition engines, the company produces dual fuel, LPG-fueled, and natural-gas-fueled engines as well. The engines are widely used in various forms, such as: agricultural equipments, construction equipments, gensets, tractors, and marine propulsion. Beta Marine, an international company providing marine propulsion engines, uses various Kubota engines for fresh water and sea-g
