How to create a research design. Published on June 13, 2019 by Shona McCombes. Revised on July 10, 2020. The research design is a framework for planning your research and answering your research questions. Creating a research design means making decisions about: The type of data you need; The location and timescale of the

that a research design is a procedural plan that is adopted by researchers to answer questions objectively, accurately, economically and with validity. A traditional research design is a blueprint or detailed plan of how a research study is to

CHAPTER 4 RESEARCH DESIGN AND METHOD 4.1 INTRODUCTION

Read PDF Mfsw C5 Research Design Paper

This research design builds on research done into use of technology and media in the home in the various other spaces using a qualitative research method¹. This discussion of the methodology attempts to present some of the specific tools and experiences used to inform the design of the research and the development of an interpretation.
